Gabriele Sutton  
KAM Animal Services

Dear Gabriele,

I wanted to thank you so much for all you have done for my horses. I was at the end of my rope eight months ago on my 10-year-old Thoroughbred, Galaxy. He was tying up, and was dealing with severe ulcers. For the past three years, my vet, trainer, and others tried so hard to figure out what was wrong and treat him. Eight months ago, we found you, and KAM Animal Services. THANK GOD! Based on your expertise I was able to tell you the symptoms, and we were able to diagnose him with EPSM. From there you explained to me what EPSM was, assigned a treatment plan, and sent me the supplements and recipe for his new diet. Within 48 hours we saw results from your products. Now, eight months later, I have a horse whom I can ride without the death sentence attached. He is happy, healthy, and excelling in every way. For the first time in three years, Galaxy is making progress. To say that Galaxy could be the KAM poster child is an understatement.

Since learning of KAM and seeing the amazing results in Galaxy, I of course jumped on the bandwagon. I attended a seminar, and learned that my 19-year-old Quarter Horse, Cash, was also in need of some dietary help. Cash was categorized as a "Chubbie." Within the last three months of getting him on the KAM program, Cash has lost 100 lbs, and now feels like a five-year-old again. Cash is on a mixture of the KAM products, but his favorite? The "Cubbies" Cookies! He gets 5 a day, and begs for more. Cash can be picky, but not when it comes to his KAM cookies. If he could eat the whole bucket, he would!

KAM Animal Services, and of course you, Gabriele, have been lifesavers. Had it not been for your treatment plan, and products, Galaxy would still be in pain, and Cash would just be another obese Quarter Horse, on the edge of founder.

To say thank you seems so minimal. As a passionate rider and owner, it means the world to know that someone like you exists. Your knowledge and products leave me speechless. I am forever grateful, and naturally refer every horse owner I know to you and your products.

Sincerely,

Stacey Owens
